Introduction

Disciplined Computer Science student with a strong desire to build solutions that simplify human life. I see myself evolving into a backend developer, crafting reliable and scalable systems with my expertise.

Skills & Technologies

Languages & Web: Java, Python, JavaScript, React.js, Node.js, HTML5, CSS3, Tailwind CSS

Databases, Tools & ML: MySQL, MongoDB, Git, GitHub, Django, FastAPI, NumPy, Pandas, TensorFlow, PyTorch, scikit-learn, OpenCV

Education

Vellore Institute of Technology

Sept 2022 – May 2026

B.Tech in Computer Science and Engineering

CGPA: 8.88/10

Central Board of Secondary Education

May 2022

Senior Secondary Education

Percentage: 90%

Central Board of Secondary Education

May 2020

Secondary Education

Percentage: 88%

Projects

Oratio | *AI-Powered Speech Analysis Platform*

- Deployed an AI-driven platform for multi-modal analysis of speech, facial expressions, and language to provide meaningful public speaking feedback.
- Integrated multiple ML models for speech transcription, emotion detection, and linguistic analysis across audio and video inputs.
- Implemented a scalable full-stack system with parallel processing, secure authentication, and interactive dashboards for performance tracking.

Vehigo | *Car Rental Platform*

- Architected a comprehensive rental platform supporting five distinct user roles for seamless booking and fleet management.
- Integrated secure authentication and real-time alerts, increasing system reliability to 99.9% and reducing manual overhead by 80%.
- Refined Django APIs and optimized 20+ workflow pages, reducing load times by 35% and enhancing user retention.

Hast-Akshar | *Real-Time Hindi Sign Language Interpreter*

- Developed a computer vision system converting Hindi sign gestures to text with 95% accuracy across 800+ gestures.
- Bridged accessibility gaps by enabling real-time communication for hearing-impaired users with 50ms response latency.
- Deployed a streamlined TensorFlow-PyTorch inference pipeline integrated with FastAPI and OpenCV for rapid predictions.
- **Role:** Machine Learning Engineer

Achievements & Leadership

GirlScript Summer of Code 2025 | *Mentor*

- Mentored 50+ open-source contributors on full-stack development practices and code reviews.

Zelestra Ascend Challenge 2025 | *Finalist (Rank 35/7,400)*

- Designed a high-precision solar efficiency model using ensemble learning techniques.

The Eureka Club | *Social Media Team Lead*

- Led a 15-member team to execute engagement strategies, increasing event participation.

Additional Information

Certifications: Oracle Cloud Infrastructure Developer, OCI AI Foundations, OCI Generative AI, Oracle Database SQL Certified Associate

Hobbies: Competitive Sports (Cricket, Sprinting), Travel, Music

Languages: Hindi, English
